

Call for volunteers

Block Island Race week 2015 Sustainability program.

This year's Race Week will introduce another first for STC. We will be moving towards making the regatta a more environmentally sustainable event. We will be following actions outlined in the Sailors for the Sea Clean Regattas protocol. There are actions we are taking, some of which will require volunteers for a couple of hours per day. Details below and are related to the following:

We are going to be more proactive in the management of recycling of materials. We will have dedicated recycling bins at the head of the docks. Please make sure your boats separate recyclables from other waste during the day.

The other big action we are taking is to reduce the consumption of single use water bottles.

We will have on site at the entrances to the docks, water refill stations. These will have Island water available for sailors to refill their own reusable water bottles.

The water bottle filling stations will need a couple of people for a couple of hours in the morning. Duties will be to refill the water butts.

If you are able to devote time to this worthwhile activity, please contact me, Joe Cooper at 401-965-6006 cooper-ndn@cox.net.

Thank you.

Joe Cooper
